BASS RIVER BEAST FOUND! Salem News editors suggest the elusive missing link

At the first ever Paddleboard clean up this past weekend, not only were hundreds of pounds of trash collected off the banks and waters of the Bass River, but more importantly the slippery beast known as Dredger Dave may have been captured. Lurking in the weeds near the Kernwood golf course. This beast has been sighted all the way back to the 1920's when Pappy Toots hauled in some bootom fish and in his net was this disgusting filthy animal covered in eel grass and Beverly News editorial clipping. It slipped out of Pappy's net before he could collect. This beast was caught suckling on an old Rheingold beer that was floating in the incoming tide. Not giving up easy, Dredger Dave would not release its vise like grip on teh beer. His whereabouts right now are classified as the authorities do some top secret research to see if this creature, breeds, drinks its weight in beer or is just a nuisance to the river folk. Stay tuned we will have more info soon.

Dave stay still, I'm trying to trim your arm-pits
