Needless to say the club did a mighty lousy job.

Speaker: Spencer Mahoney of Atomic Cafe and Atomic roasters. factoids: He pointed out Coffee is a seed not a bean. Mostly grown near Equator and in higher altitudes, Estimated 2

Billion cups a day are consumed.

Spencer oversees 22 people in the operations part but also does much of the social media part. Family business and the Cafe on Cabot Street is different from the Coffee Roasters but they are both born from same origins.

They import form all around the globe for various flavors and roast 600 thousand lbs per year. He oversees that in mornings then switches hat to social in afternoon.

He gave the Who, what, where and Why. Family business and was born into in. Looks at his job as more problem solving and being a fix it man. Employees frown on "fire" references in talk.

Art from some of their can labels came form a now 13 year old girl in Salem who drew great images for their labels.

Estimated 65% of Americans drink at least one cup a day, it is now most widely drink of younger generations. Most people drink same kind of coffee daily, despite having literally thousand of varieties, they like to stay in their lane for comfort.

They have 1400 subscribers on their social media. Their product is available in cafes from Providence to Newburyport.

They are very socially aware being involved in many different charities in Essex county including youth outdoor adventures and joining with station WERS (what are we waiting for, sign him up!!!)

Spencer took a few questions from club, including such important topics as: How long does it take to roast? coffee 12-14 minutes

Ever try Kopi luwak? Don't ask. don't tell, don't drink

Will they soon go into pods? A definitive no based on the pods don't have enough coffee to give their drinkers the jolt they are looking for.

Spencer received a 100 year commemorative book.

Raffle: Yaffa picked card and luck still hasn't changed

The meeting ended at 1:30pm.
